

Challenge 1: Automation testing [Technical Skills]

Tasks:

1. Outline a test strategy:
 - Types of testing needed: E2E testing
 - Key areas of focus : Register and search mentoring,
 - Env : Development
2. Identify high Level Test Scenarios:
 - Start From Register or Login
 - Mentoring
 - 1. Explore [Career]
 - Search data not found
 - Search data found
 - Search By name
 - Search By Company
 - Search By role
 - Explore Career Accounting, Art & design, Business
 - Submit schedule with mentor
3. Bugs
 - On the specialization registration page,
Step:
 - Fill in all the fields as they should be until you find the specialization page.
 - when you scroll down the page, the add another specialization button glitches and becomes double.

Expected : when you scroll down the page, the add another specialization button not glitches and not becomes double

Link run : `npx cypress run --record --key 77f8364e-72f0-4630-9325-aa1e896d0aa9`
